

If you are a talented Penetration Tester, who enjoys security work and possesses a solid depth and breadth of expertise in the security space we want to hear from you! Join our growing team and become part of a local success story.

In this full time role you will evaluate the security of organisations by demonstrating how they can be compromised through system vulnerabilities.

### Responsibilities

- Conduct infrastructure and application penetration tests
- Conduct attack simulations against organisations
- Develop technical solutions and new security tools to exploit security vulnerabilities and automate repeatable tasks
- Ensure that the client knows as much as possible about security issues and how they can be resolved
- Write comprehensive reports including assessment-based findings, outcomes and propositions for further system security enhancement

### Requirements

- Detailed technical knowledge of network, operating system, database and application security
- Thorough understanding of security systems, including firewalls, intrusion detection systems, anti-virus software, authentication systems, log management, content filtering, etc
- Programming and scripting skills
- Problem solving skills and ability to work under pressure
- Bachelor degree in Engineering, Computer Science or related field
- Australian citizen able to receive government security clearance

### Self Improvement

The cyber security field is highly dynamic and requires committed professionals who seek to continually learn and improve. Ionize recognise the importance of self-improvement and invests heavily in its people so they can be the best in their respective disciplines. As such, the successful candidate is expected to complete the Offensive Security OSCP exam within six months after commencement. Study materials will be provided and reasonable study leave will be approved while the candidate is pursuing certification. Future education requirements will be guided by the successful candidate's domain specialisation.

### Workplace Culture

Ionize is an equal opportunity employer seeking representation from all areas of the community. We believe a diverse set of people with varied perspectives give us a significant advantage and a great place to work!

### Application Process

If you want to be a part of a team working in a challenging and rewarding environment apply now by emailing your CV and an introduction of yourself to [careers@ionize.com.au](mailto:careers@ionize.com.au) quoting reference PT0516. Salary is negotiable based on skill and expertise.

Please note, due to the nature of this work, eligibility to obtain an Australian security clearance is mandatory.
